

# Mapping Religious Material Culture in Amsterdam

In 2025, Amsterdam will turn 750. For this festive occasion, a new religious map of the city is being produced, showcasing the diversity of all those religious communities that have been present in Amsterdam's long history, honouring the objects and stories they left behind.

AUC students can participate in this project, too ! This January intensive, work with AUC lecturer Minou Schraven and museum professionals on stories to be included on this digital map.

The project is a fit for those students interested in

- doing historical and anthropological research
- working with museum collections
- uncovering stories that deserve to be told.

## Research Internship Opportunity

**3 to 5 AUC students**

**JANUARY  
INTENSIVE**
